Explanation of 1950s BLM grazing files.

Attached are three document from BLM's archives concerning livestock grazing near the Bald Knoll area.

Project #0350, "Brinkerhoff Allotment Fence," dated 1954. On the second page, a map shows the location of fence construction. The fence cuts north-south across the boundary between sections 8 and 17 in Township 40 South, Range 4 ½ West, which the claimed Bald Knoll route crosses from east to west. No cattleguard is indicated, nor is any evidence of the road.

Project #0352, "Fuller Springs Fence," dated 1954-57. On the second page, a map shows the location of fence construction. The fence cuts east-west across section 22 in Township 40 South, Range 5 West, which the claimed Bald Knoll route crosses from north to south. No cattleguard is indicated, nor is any evidence of the road.

Project #346, "J.G. Robinson Fence and Cattleguard," dated 1954. By comparison, the description of this project notes the need to erect a cattleguard on a "County road" in sections 33 and 34 of Township 40 South, Range 4 ½ West, several miles south of the claimed route of the Bald Knoll road.
